

## **50% of African Children Lack Access to Primary School Education**

***\*\*Take a picture from the stack and a marker. Go through the picture and put an X over half of the children. Imagine you are choosing which children go to school and which will not.***

**Imagine the life opportunity of the children who have an X on them. They will never get a better job than the plowing of their family's land. Never be able to go to college or succeed in their childhood dreams of being a doctor, lawyer or pilot.**

**Confess how often you have taken school for granted. Thank the Lord for the opportunity to go to school and ask Him to help you remember that this is a privilege that others wish they had.**

**Pray for the children who won't get to go to school today. Pray for those who are working in the fields or for others just to scrape together the money to go to school next term. Pray for those who simply need a pencil or some school supplies to be able to return to school. Ask the Lord to provide for their needs. Ask Him how He might use YOU to be a part of that provision.**

***Many children lack school fees (as little as \$10) or even a pencil to attend school. Consider talking to your teachers or principal about doing a school drive for supplies, school fees or even teachers salaries (as little as \$180 per month)***
