

THIS IS MARGARET...

She lives in Adacar, Uganda. She is 13 years old. She has four brothers and sisters that she takes care of all by herself. Why all by herself you might ask? Because her mother died of HIV/AIDS. Her father committed suicide because he realized he infected the family with HIV. Her grandfather died last year. Her grandmother is very sick. She is alone. Sick. Hungry. And so her tears flow. Do ours? And do they move us to action?
