

THIS IS NOT AN ABANDONED BUILDING...

This is where 300 Ugandan children attend school. If a child comes here without a pencil they are turned away. There are no desks. There are no books. But there is a desire to learn. What if your education was dependent on whether or not you had one pencil? A pack of 50 pencils costs us \$3.00. It takes so little to help 50 children go to school. What's stopping you?
